

North Carolina State University

Department of Statistics

Required	Strongly Recommended	Minimum Requirements	Other factors
<p>Applicants should have completed Calculus I, II and III (including multi-variable calculus), linear algebra and introductory statistics.</p> <p>One semester of advanced calculus is a co-requisite for the Master's program and one semester of real analysis is a co-requisite for the PhD program. The advanced calculus or real analysis course can be taken once a student is enrolled.</p>			

Current Practice on Application Fee Waiver:

The Graduate School may, in exceptional circumstances, waive the fee required to accompany a prospective student's application. Approval of any request to waive the application fee will be based on (1) financial need and (2) underrepresented status or diversity within a particular graduate program.
