University of Northern Iowa
Department of Mathematics

Required	Strongly Recommended	Minimum Requirements	Other Factors
A B.A. or B.S. or equivalent degree from an accredited college/university. A course in Modern Algebra and a course in Advanced Calculus. The GRE is not required.	A year-long sequence in Modern Algebra and a year-long sequence in Advanced Calculus, Introduction to Complex Analysis or Elementary Number Theory.	A course in each of the upper division courses Advanced Calculus and Modern Algebra. Students who are admitted without these minimum requirements are required to take these courses in their first year. Some students can be supported while they take undergraduate courses.	Strong letters of recommendation addressing potential to complete a rigorous course of study leading to a master's degree are helpful.

Current Practice on Application Fee Waiver:

The current practice of our Admissions Office is to grant waivers only to minority applicants. We would have to make a special request to extend the waiver to all Alliance Scholars, but Iowa State law may not allow it.

All Alliance Scholars can apply for an application fee waiver through the CIC freeapp.
