

University Partner of the Math Alliance

College of Liberal Arts and Sciences

More than 1,900 graduate students are enrolled in programs offered by our departments. In any single year, our College awards about 33% of the University's graduate degrees. About 1,700 international students study in CLAS—approximately 10% of our total enrollment—and almost 3,600 of all of our students (about 19%) identify as coming from U.S. minority populations.

For more information, visit clas.uiowa.edu

Department of Mathematics

We are a founding member of the Math Alliance and home to Dr. Phil Kutzko, co-founder and director of the Alliance.

What We Offer:

-Cutting-edge research

We have 40 faculty members with research interests including algebra, analysis, differential equations, number theory, and topology, as well as a wide range of applied mathematical and computational sciences.

-A culture of mentoring

Every graduate student has a professor who will act as your advocate and will help advise you through every aspect of graduate school.

-A diverse department

Currently, over 20% of students enrolled are U.S. minorities and over 30% are female.

-Full funding!

Over 97% of students are currently supported through a variety of fellowships and teaching assistantships.

-All students get jobs!

100% of the Department's Ph.D. graduates have secured positions.

For more information, visit math.uiowa.edu/graduate-program

Department of Statistics and Actuarial Science

Our nationally ranked Ph.D. program in Statistics prepares students for careers in research, applications, and teaching.

Students choose one of four areas of concentration:

- Probability/Mathematical Statistics
- Statistical Modeling
- Actuarial Science/Financial Mathematics
- Biostatistics

The University of Iowa — University Partner of the Math Alliance

College of Engineering

The College of Engineering at the University of Iowa offers M.S. and Ph.D. programs in:

- Biomedical Engineering
- Chemical and Biochemical Engineering
- Civil and Environmental Engineering
- Electrical and Computer Engineering
- Industrial Engineering
- Mechanical Engineering

Whether you like to come up with new ideas, work with people, or want to make a difference in the world, engineering will open the most doors and Engineering at Iowa will help you become that engineer...and something more.

For more information, visit engineering.uiowa.edu/future-students/graduate-studies

College of Public Health Department of Biostatistics

The Department of Biostatistics offers students an exciting way to combine mathematical, statistical, and biological interests to contribute to important research that improves lives.

Faculty are committed to providing quality education in a supportive environment with a small student to faculty ratio.

For more information, visit public-health.uiowa.edu/biostat/

College of Education Educational Measurement and Statistics Program

We are committed to preparing students for successful careers in educational measurement, evaluation, research, and statistical/quantitative analysis.
