

Washington State University

Graduate Programs in Mathematics and Statistics

Our 34 faculty members and over 110 graduate students pursue research in topics of global interest:

Mathematical Modeling

Discrete Mathematics

Statistics

Optimization

Mathematical Biology

Analysis and PDEs

Matrix Algebra

Number Theory

Mathematics Education

The Department of Mathematics and Statistics offers the Ph.D. in Mathematics with options in pure mathematics, applied mathematics, and mathematics education, the Ph.D. in Statistics, and the Master's with options in pure mathematics, applied mathematics, computational finance, teaching, and statistics.

Graduate students are supported year-round by teaching assistantships, research assistantships, and scholarships.
