

## Thinking about a PhD in Economics?

- ASU Faculty are devoted to excellence in teaching and research in multiple fields of Economics.
- One of our faculty, Edward C. Prescott, was awarded the 2005 Nobel Memorial Prize in Economic Sciences.
- ASU Department of Economics is ranked No. 31 by IDEAS.
- Our faculty members publish their work in prestigious general-interest journals in Economics and in the top journals of their disciplines.

W. P. CAREY SCHOOL OF BUSINESS

## PhD in Economics at ASU

- The W. P. Carey PhD in Economics equips students for research and teaching positions at top institutions of higher education in the world as well research positions in public agencies or private organizations. The program is relatively small, with about 40 full-time doctoral students in residence at any time. A low student-to-faculty ratio allows us to provide greater faculty attention and mentoring than larger programs.
- The Economics Department at ASU is known for the strength in macroeconomics. Additionally, over the last several years, the department has recruited a strong research group in empirical microeconomics, along with environmental economics, industrial organization, economic theory, financial economics, and econometrics.
- Our recent graduates have published in the American Economic Review, Econometrica, Review of Economic Studies, Quarterly Journal of Economics, and other leading journals. Stipends are competitive with top graduate programs. We are eager to build on the successes of our alumni.
- Please visit our website for more information, check out our faculty pages and/or email us with any questions you have.
