

## Center for Applied Math (CAM)

A clearing house for applied math at Cornell;

Over 100 faculty from 15 units.

<https://www.cam.cornell.edu>

**Research themes:** Nonlinear dynamics, network theory, numerical analysis, optimization, signal processing, applied probability, statistics and data science, game theory, mathematical biology, mathematical finance, mathematical physics, artificial intelligence and machine learning...

### Key programs:

- Graduate field of applied mathematics
- Interdisciplinary postdoctoral program
- Regular public colloquia and internal seminars
