Graduate Program in Mathematics

A community of scholars exploring all that is exciting and *fascinating* about mathematics *in our age*

We pride ourselves on our constructive and collegial atmosphere

The American Mathematical Society ranks our research faculty in Group 1 of American mathematics departments, and its 35 plus members are dedicated to providing the best possible graduate program in mathematics.
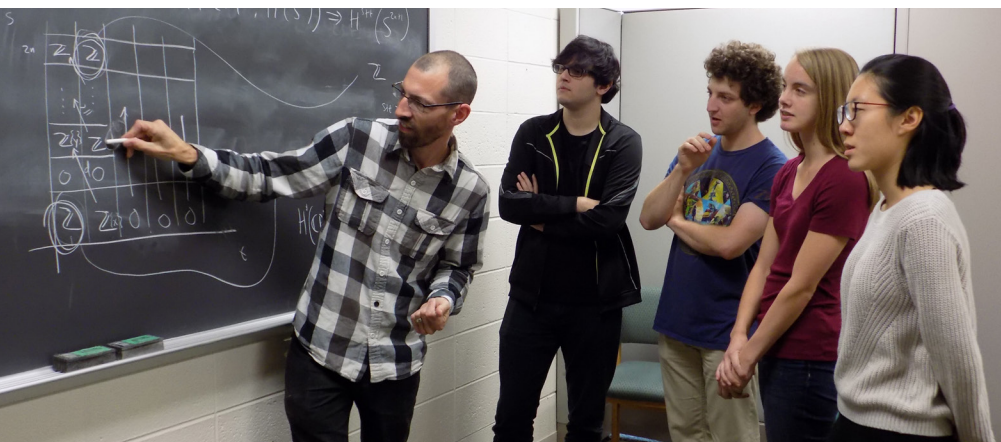

The courses are intense, the classes are small, and there is a great deal of opportunity for interaction with the faculty.

Areas of study:

- **Algebra/Algebraic Geometry**
- **Complex Analysis**
- **Discrete Mathematics**
- **Geometry**
- **Logic**
- **Mathematical Physics**
- **PDE**
- **Topology**

Mathematical Research ▪ Teaching Experience

Admissions application deadline is January 7
